Spotlight on energy efficiency

Latin America and the World

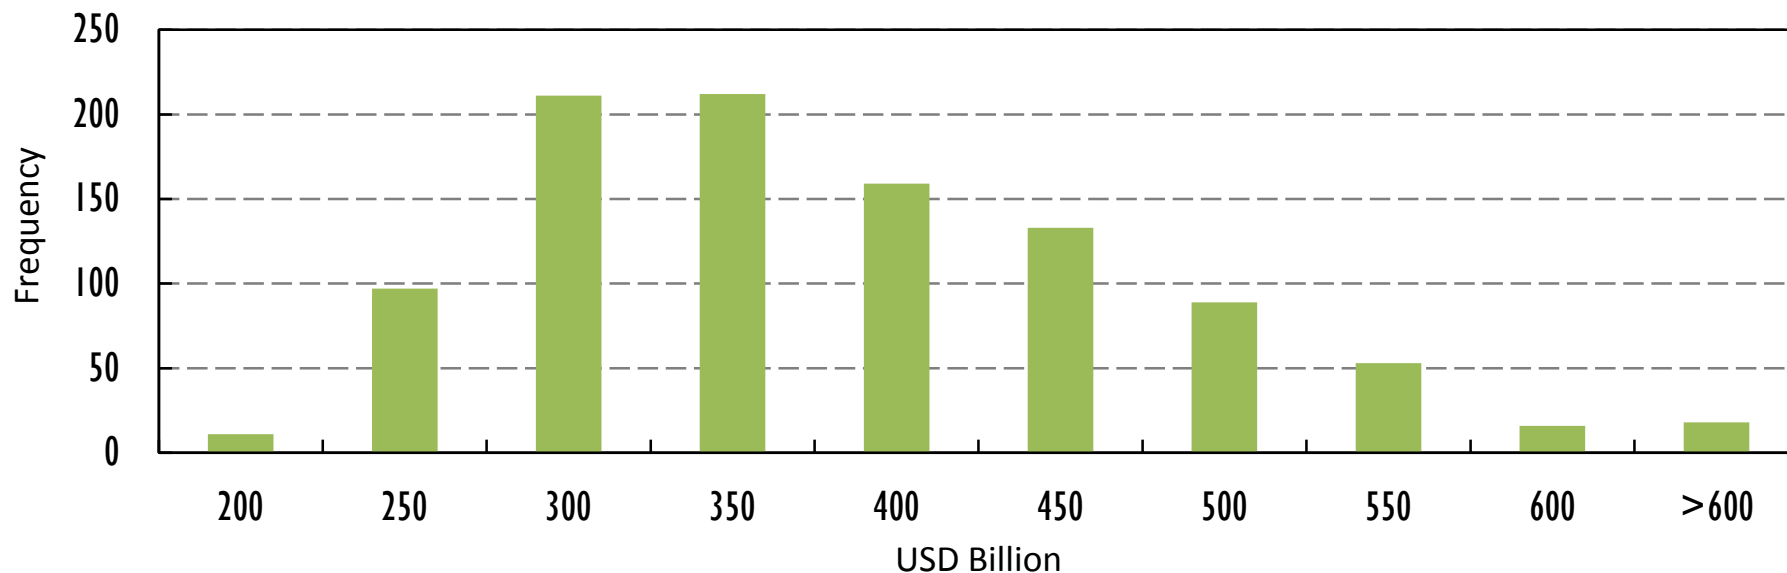

IEA - a strong supporter of SE4All

- IEA Executive Director a member of SE4All Advisory Board
- IEA co-leads the work to produce the SE4All Global Tracking Framework
- IEA is represented on SE4All sub-committees on energy access and energy efficiency
- IEA contributed to numerous SE4All ad-hoc reports and briefing papers

Global Energy Efficiency Investments 2012

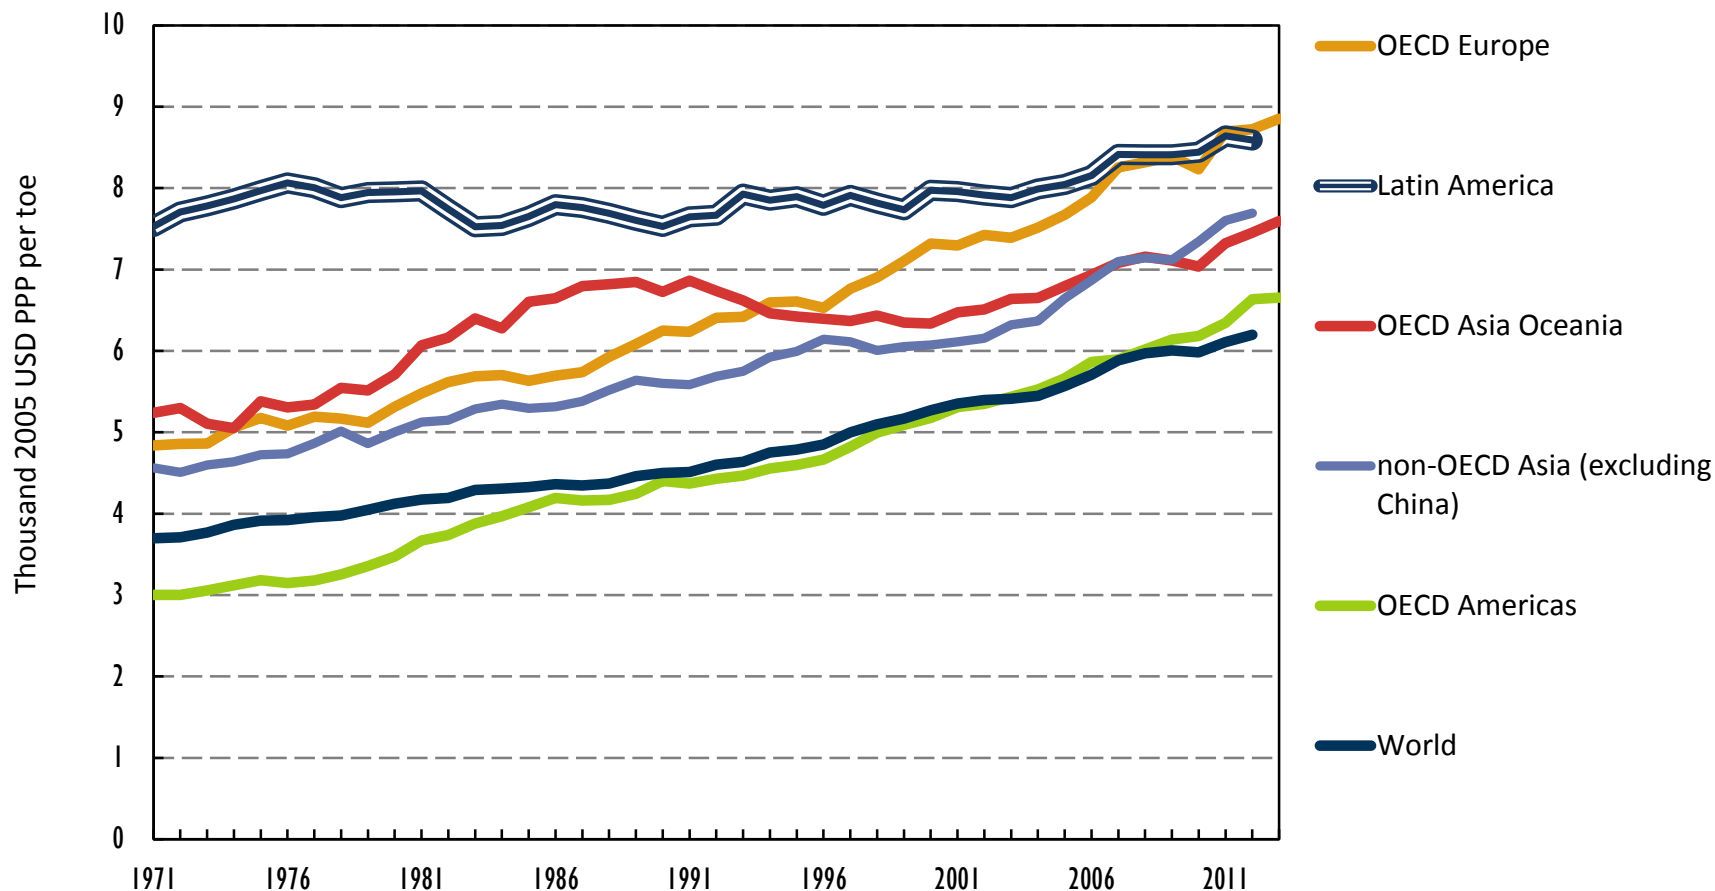

- There is **no single accepted methodology** for estimating the size of energy efficiency investment at a global level
- Applying six methods, IEA estimates the value of global energy efficiency investment in 2012 between **USD 310 and 360 billion**.
