ABOUT THIS HANDBOOK

This handbook provides information about the Inter-American Development Bank's ("The Bank")¹ Medical Benefits Program.

The program includes coverage for:

- Medical
- Prescription Drugs

The handbook explains each of these plans, section by section. It highlights what is covered and how your benefits work. It also provides useful information on who to contact if you need additional assistance. Actual benefits will be issued in accordance with policy provisions, which may vary depending on the nature of the illness and/or type of service rendered.

Information boxes, marked with the symbol:  highlight key information about a topic.

A glossary of terms is available at the end of the handbook for reference.

All amounts presented in this handbook are in U.S. dollars.

¹ This handbook also applies to IDB Invest.

1.6 PLANS ADMINISTRATION

The Bank hires external companies or third-party administrators (TPAs) to process claims and assist with designing and implementing benefit updates, network access, and billing on behalf of the IDB. For life insurance, the Bank hires an insurance company to provide coverage under the terms of a policy. The Executive Secretariat of the Staff Retirement Plan (SRP) manages the retiree death benefit.

The administrator of your plan, especially in the case of pharmacy benefits, will depend of the place where the staff or retired member officially resides. In all cases, medical, dental, and vision benefits will be administered by AETNA INTERNATIONAL. This company will also administer the pharmacy benefits outside the US and Puerto Rico. The pharmacy

benefits for staff and retired members that officially reside in the US, or for staff and retired members that officially reside outside of the US, but travel to the US and Puerto Rico, will be administered by EXPRESS SCRIPTS INTERNATIONAL.

Please note:

- You can contact your plan administrator to know more about: 1) How your benefits work; 2) What is covered; 3) Benefits and member eligibility; 4) Finding a doctor or providers; and 5) Claims status /updates.
- You will need your ID number and account information when contacting your plan administrator. Contact information is also available on the back of your insurance ID card.

SECTION 2

MEDICAL PLAN

SECTION 2. MEDICAL PLAN

The Medical Plan provides comprehensive medical benefits for you and your covered family members.

2.1 MEDICAL PLAN OVERVIEW

The Medical Plan provides a full range of health care benefits and covers:

- Doctor's office visits
- Routine and preventive care
- Inpatient hospital services
- Outpatient services at hospitals, doctors' offices and other facilities
- Emergency care
- Urgent care

The plan is called an Indemnity Health Plan and it reimburses you after you have incurred the medical expenses and have filed a claim with your plan administrator.

Submit your reimbursement requests through the different channels offered by AETNA INTERNATIONAL.

If you need medical services in the US, you have access to AETNA INTERNATIONAL'S network and could benefit from the discounted rates offered by the network providers who are part of its Preferred Provider Organization (PPO).

If you decide to use out-of-network providers in the US, you're still covered under the Medical Plan, but you'll receive the benefits at the Reasonable and Customary rates of the sip code where the service was provided. Generally, you pay more for out-of-network services.

Please note that if you receive medical care in the US, your claims inside or outside the AETNA INTERNATIONAL network will be processed at the co-insurance level that applies for members of the national plan.

The yearly out-of-pocket maximum for members under the national plan is 10% of gross annual salary/pension.

*See Section 10: Glossary of Benefit Terms

2.5 LETTER OF AUTHORIZATION (LOA)

Outside the United States, AETNA INTERNATIONAL has established a process to issue a Letter of Authorization (LOA) for any provider or hospital so you may receive necessary services without the need to pay up front and file a claim. Plan members may request a LOA in order to establish arrangements for AETNA INTERNATIONAL to pay for services.

The LOA establishes the procedures/services to be rendered, the amounts to be paid and the service provider who will receive payment. Members can start the LOA request process prior to their scheduled hospitalization/surgery.

Although many AETNA INTERNATIONAL network providers may not require a LOA, it is always a good idea to particularly request one in advance of scheduled services, and especially if there is uncertainty as to whether the provider is in- or -out-of-network for AETNA INTERNATIONAL.

In principle, a LOA should be granted by AETNA INTERNATIONAL within 72 hours after the request has been made, except in cases of emergencies in which a LOA should be issued almost immediately.

To process a LOA contact AETNA INTERNATIONAL.

SECTION 3

PRESCRIPTION DRUG PLAN

SECTION 3. PRESCRIPTION DRUG PLAN

No matter where you are, you are covered for prescription drugs. You simply purchase your medication and file a claim with AETNA INTERNATIONAL for the reimbursement.

This does not apply in the USA, where your pharmacy administrator is Express Scripts.

3.1 HOW THE PRESCRIPTION DRUG PLAN WORKS

The Prescription Drug Plan includes coverage for brand-name and generic drugs. In the USA, the Plan includes “mandatory generic substitution.” This means that, when your prescription is available in both brand-name and generic drugs, the pharmacist will automatically dispense the generic drug. A generic drug is one that contains the same ingredients and provides the same therapeutic

benefits as the higher-cost brand-name drug. Generic drugs enter the market once the patent of brand-name drugs expire.

While in the U.S.A. or Puerto Rico, you must use your EXPRESS SCRIPTS ID card in order to be able to purchase prescription drugs in network pharmacies. In those pharmacies, you will only be required to pay the corresponding co-payment. For non-network pharmacies in the U.S.A. or Puerto Rico you will be required to pay the full cost and then submit your claim to AETNA INTERNATIONAL at iadbservice@aetna.com for reimbursement. The cost of prescription drugs is higher in out-of-network pharmacies. Please visit the EXPRESS SCRIPTS website or download its app to find in-network pharmacies in the US.

SECTION 4

VISION PLAN

SECTION 4. VISION PLAN

The Vision Plan provides routine eye care benefits for you and your covered family members.

4.1 HOW THE VISION PLAN WORKS

To receive vision care benefits, you can go to the licensed provider of your choice. You and each of your covered dependents receive benefits for eye exams, new frames and lenses, and/or contact lenses.

4.2 FREQUENCY OF YOUR BENEFITS

All your Vision Plan benefits apply for a 12 -month period. So, every 12 months, you will be covered for a new eye exam as well as for new frames, lenses and contact lenses, provided they are prescribed by your doctor. It works the same way for frames, lenses, and contact lenses.

Once you receive a Vision Plan service, you will need to wait a year before the plan will pay benefits for the same services again.

4.3 RECEIVING YOUR BENEFITS

The plan will pay benefits toward your total vision care cost after your visit to your eye doctor or optometrist. You submit your vision bills and any other pertinent receipts to the claims administrator for reimbursement.

Some Vision care conditions are covered as medical services. The most common types are cataracts, glaucoma, conjunctivitis (pink eye). Injuries to the eye are also covered under medical services. For more information please contact AETNA INTERNATIONAL.

Outside of the USA, in-network maximums apply for vision care and materials, as reflected in the second column of Table 4.4 below. In the USA, in and out of network maximums apply for vision care and materials, as reflected in the second and third column of Table 4.4, respectively.

All plan members receive a AETNA Vision Preferred ID card (one per family). Plan members residing outside the U.S.A. can use the vision ID cards while in the U.S.A. to obtain in-network benefits (co-pay applies). The AETNA Vision Preferred card will work similarly to the EXPRESS SCRIPTS card.

Please note vision cards are not personalized. When you, your spouse or children go to the eye doctor or eyewear store, simply present the card to the provider. Your vision care provider will then call to verify eligibility to AETNA VISION at 1-877-977-3238.

SECTION 5

DENTAL PLAN

SECTION 5. DENTAL PLAN

The Dental Plan covers routine preventive care and other services including orthodontics.

Normal dental care, provided the charges are reasonable and customary and do not exceed the amounts that would have been charged in the absence of insurance, are covered under the Dental Plan.

5.1 HOW THE DENTAL PLAN WORKS

During the first 12 months of participation in the Dental Plan, benefits are limited to 50% reimbursement.

After 12 months of participation and only if the participant has incurred and submitted a claim for reimbursement during the previous 12 months, the Dental Plan will provide the benefits described in the table of covered dental services.

To receive dental care benefits, you can go to the licensed provider of your choice.

If you need assistance to find network providers in the US, please contact AETNA INTERNATIONAL.

For each type of covered service you need, the plan pays a percentage of the total cost.

5.3 BENEFIT MAXIMUMS

For covered services, except orthodontics, your benefit maximum is an annual dollar limit of US\$1,500. This limit renews each calendar year. During the first 12 months of participation in the Dental Plan, benefits are limited to 50% reimbursement.

For orthodontic benefits (like braces, for example), the benefit maximum is per lifetime. That means that the dollar limit does not renew each year.

5.4 PRE-DETERMINATION OF BENEFITS

When your dentist identifies that you'll need work that's more extensive than just routine care, it's advisable to request a pre-determination of benefits from AETNA INTERNATIONAL to determine coverage and costs. Doing this will let you and your dentist know in advance what the dental plan will pay.

5.5 COVERAGE FOR ACCIDENTAL DAMAGE

If an accident or injury causes damage to your

sound, natural teeth, you are covered for benefits, and the annual dental maximum does not apply.

5.6 WHEN SERVICES BEGIN

In all but a few cases, services begin when your dentist or other dental professional begins performing them. Here are the exceptions:

- Fixed bridgework, full dentures, or partial dentures: Service begins when the first impressions are taken and/or abutment teeth are fully prepared.
- Crowns, inlays, or onlays: Service begins on the first day of preparation of the affected tooth.
- Root canal therapy: Service begins when the pulp chamber of the tooth is opened.

These services fall into a different category because they often require other related services that are considered part of the same treatment.

Some Dental services such as those related to an accident are covered as medical services. For more information please contact AETNA INTERNATIONAL.

5.7 WHAT IS NOT COVERED

The Dental Plan does not pay for:

- Experimental procedures or treatments that aren't approved by the American Dental Association, or by the national authorities in the country where you are, or by the dental specialty society.
- Services performed for cosmetic reasons only.
- Replacement of lost or stolen dental appliance.
- Replacement of a bridge, crown, or denture within five years after the date you originally receive it -- unless you need the replacement because the original is affected by (a) the placement of another (opposing) denture, (b) the extraction of natural teeth or (c) damage to the original as a result of an injury.

SECTION 7

GENERAL LIMITATIONS AND EXCLUSIONS

SECTION 7. GENERAL LIMITATIONS AND EXCLUSIONS

The Medical Insurance Program includes coverage limits and exclusions for certain expenses. This section lists the general limits and exclusions that apply to the program.

7.1 WHAT THE PROGRAM DOES NOT COVER

The plans included in the Program do not cover:

- Services that aren't medically necessary - except preventive care services.
- Unnecessary care, treatment, or surgery.
- Out-of-network medical plan charges in excess of reasonable and customary (R&C) amounts.
- Expenses that are unlawful in the locality where you live.
- Expenses that you are not legally required to pay.
- Expenses that wouldn't have been billed if you weren't covered under the IDB plans.
- Expenses billed by a hospital that's owned or operated by the U.S./Local Government - unless (a) there is a legal obligation to pay those expenses or (b) the expenses are related to treatment for illness or injury connected to military service.
- Expenses for custodial services, education, or training.
- Expenses related to activities of daily living (ADLs):
 - 1) Personal hygiene - bathing, grooming and oral care;
 - 2) Dressing - the ability to make appropriate clothing decisions and physically dress oneself;
 - 3) Eating - the ability to feed oneself though not necessarily to prepare food;
 - 4) Maintaining continence - both the mental and physical ability to use a restroom; and
 - 5) Transferring - moving oneself from seated to standing and get in and out of bed.
- Expenses that are eligible for reimbursement under a U.S.-sponsored public health program, or

a similar type of program sponsored by another country. [Note that eligible programs include Medicare but not Medicaid].

- Over-the-counter medications or any other over-the-counter disposable or consumable supplies.
- Expenses submitted by any provider who is a member of your family, or the family of any of your covered dependents.

7.2 MEDICAL INSURANCE PROGRAM COVERAGE VS. AUTO INSURANCE COVERAGE

If you, or one of your covered family members, are injured in an automobile accident, you may be entitled to benefits coverage under certain provisions included in auto insurance policies. These provisions are included to comply with mandatory "no fault" insurance and uninsured motorist laws.

If any of these provisions apply to your situation, reimbursement for your medical expenses will come first from the auto insurance policy coverage.

7.3 SUBROGATION

If you are ill or injured through the fault of another person or organization, a third party (for example, an insurance company) might be liable or legally responsible for expenses incurred by you or your covered dependents. Benefits may also be payable under an IDB plan for such expenses.

In this situation, if a Bank's plan and a third party both pay expenses for you or one of your covered dependents, a process called "subrogation" will begin. Subrogation is a legal process that entitles the Bank's plan to recover payment it made for expenses that a third party was obligated to pay.

For purposes of the subrogation rules, a "third party" is defined as any person or organization - including their insurers - causing illness or injury to you or your covered dependents.

In its efforts to recover payment, the Bank may need you to provide any information and paperwork related to the expenses you incur because of the illness or injury caused by the third party.

7.4 COORDINATION OF BENEFITS

7.4.1 WHEN YOU HAVE OTHER INSURANCE COVERAGE

This section describes how the Bank's Medical, Dental, and Vision plans pay benefits if you (or one of your covered family members) have coverage through another group health plan.

When you are covered by the IDB plans and also by another outside plan or program – for example, the medical plan of your spouse's employer – the IDB plan will “coordinate” benefits with those other plans.

Coordination of benefits means that the benefits under one of the plans will be reduced so that the sum of the benefits payable from all plans Will not exceed more than 100% of the allowable expenses related to a particular claim.

7.4.2 PRIMARY AND SECONDARY BENEFITS

When two or more plans coordinate benefits, one plan pays first. To determine which plan pays first, the Bank relies on benefit determination rules. These rules establish the primary plan – which is the plan that pays first, and the secondary plan(s) – the plan(s) that pay only after the primary plan pays.

7.4.3 WHEN AN IDB PLAN IS PRIMARY

When the benefit determination rules indicate that the Bank's plan is primary, the Program will pay benefits as if there is no other secondary coverage.

7.4.4 WHEN AN IDB PLAN IS SECONDARY

When the benefit determination rules indicate that the Bank's plan is secondary, Bank's benefits will reduce so that the sum of the benefits payable under all plans (both primary and secondary) won't exceed 100% of allowable expenses.

7.4.5 BENEFIT DETERMINATION RULES

To establish the primary and secondary plans, the Bank follows standardized rules, which are:

- The plan that covers the claimant as a subscriber (or, in other words, not as a dependent) is primary, and any other plan that covers the claimant as a dependent is secondary
- The “Birthday Rule” when a dependent is covered under an IDB plan and under another plan, the “birthday rule” determines the primary plan. The birthday rule says that the plan of the person whose birthday falls earliest in the calendar year is the primary plan

There are exceptions to this rule:

- If the other plan doesn't use the birthday rule, then that plan's alternate rule will determine the primary plan.
- If the claim is for a dependent child of divorced or separated parents, then the determination rules consider any court rulings that assign financial responsibility for benefits.

Court rulings

- For a dependent child of divorced or separated parents, any applicable court rulings will help determine the primary plan. If there is a court ruling that establishes financial responsibility for medical, dental, or other health care benefits, then the plan of the person named in the court ruling will be primary.

- The plan of a parent with custody will be primary and the plan of a step-parent will be secondary.
- The plan of a parent with custody will be primary and the plan of a parent without custody will be secondary.

Length of dependent coverage

- If the primary plan still has not been established, then the benefit determination rules consider how long the dependent with the claim has been covered under an IDB plan and how long the dependent has been covered by another plan. The plan that has covered the dependent for the longer period of time is the primary plan.

There are exceptions to this rule:

- The plan of a working employee will be primary, and the plan of a person laid off, retired, or who's become a dependent of the working employee, will be secondary.
- If the other plan does not use the rule that makes the plan of the working employee primary and the plan of the laid off, retired, or dependent person secondary, then IDB will not use that rule. In such a case, if no other benefit determination rules are able to establish the primary plan, the primary plan will be established according to the length of time the dependent with the claim has been covered under an IDB plan compared to another plan.

The following definitions have special meaning in benefits coordination rules:

"Plan" means any of the following that provides medical, dental, or vision benefits or services;

- Group or blanket insurance coverage, other than group school accident policies
- Service plan contracts, group or individual practice or other pre-payment plans

- Coverage under any labor management trustee plans;
- Union welfare plans
- Employer organization plans
- Employee benefit organization plans

- "Plan" does not include coverage under individual or family policies or contracts. Each plan or part of a plan that has the right to coordinate benefits will be considered a separate plan:
- "Allowable Expense" means any necessary, reasonable, and customary term of expense that's covered, in full or in part, by any one of the plans that covers the person for whom the claim is made. When the benefits from a plan are in the form of services rather than cash payments, the reasonable cash value of each service is considered both an allowable expense and a benefit paid. "Allowable expense" does not include the difference between the cost of a private room and the cost of a semi-private room, except when the person's stay in a private room is considered medically necessary according to generally accepted medical practices.

SECTION 8

MISREPRESENTATION, FRAUDULENT CLAIMS, AND RECOVERY OF OVERPAYMENT

SECTION 8. MISREPRESENTATION, FRAUDULENT CLAIMS, AND RECOVERY OF OVERPAYMENT

8.1. MISREPRESENTATION AND FRAUDULENT CLAIMS

Members must notify the Bank of any changes affecting the eligibility of their dependents or themselves for participation in the Medical Benefits Program.

Members are also expected to submit claims consistently with the rules and procedures applicable to the Program and to be truthful in their dealings with the Bank and with the Program Administrator. Members must also cooperate with any audit, investigation or other inquiry regarding their participation and/or the participation of their dependents in the Program.

Any corrupt practice, misrepresentation, falsification of claims, other fraud, failure to cooperate with an investigation or other obstruction of an investigation, or any other wrongdoing related to participation in the Program shall be considered serious misconduct. The consequences of such misconduct may include, but shall not be limited to loss of eligibility to continue participation in the Program; the offset of other payments, including in the form of payments from the Program or other payments due from the Bank, to compensate the Program for wrongfully-paid amounts; and other process for the restitution to the Program or the Bank, as applicable, for lost amounts. Furthermore, the consequences of misconduct for active staff include disciplinary sanctions and may include the termination of employment.

The Bank may also refer any suspected violation of national law to the appropriate authorities.

8.2. RECOVERY OF OVERPAYMENT

Members must report overpayments immediately. In the event of overpayment, the Bank or AETNA INTERNATIONAL shall have the right to request repayment upon notification by the Bank or AETNA INTERNATIONAL to the plan member.

Failure to promptly repay such amounts shall be considered misconduct.

SECTION 9

GLOSSARY OF BENEFIT TERMS

SECTION 10. GLOSSARY OF BENEFIT TERMS

Admitted. When the patient changes status from outpatient to inpatient.

Brand-name Drug. A drug still under patent by a specific pharmaceutical company.

Case Management. A free service the Claims Administrator provides, designed to ensure you receive the right medical care in the right setting when coping with a serious condition or illness.

Coinurance. The portion (usually expressed as a percentage) of the total covered benefit costs that a plan pays (or that you pay).

Continued Stay Review. Process for ensuring that a continued hospital stay is the most effective setting for medical treatment. It takes place after you are admitted and focuses on whether additional days in the hospital are appropriate.

Conversion. A feature included in some of the IDB life and medical insurance plans, allowing you to switch your coverage to an individual policy if you leave the Bank. Different premium rates apply.

Coordination of Benefits (“COB”). When considering a claim for reimbursement of an eligible expense that is payable by an IDB plan and at least one other plan, the process of determining how much of the expense should be paid by IDB. Coordination of benefits ensures IDB will pay no more for such an expense than it would have had you been eligible for benefits under only the IDB plan.

Co-payment. The fixed amount you pay up front for prescription drug costs.

DAW. Short for “Dispense As Written,” an abbreviation doctors sometimes use on prescription forms when they want the pharmacy to dispense medicine exactly as prescribed, with no generic or other drug substitutes.

Deductible. An annual amount you must pay for out-of-network services before the medical plan pays benefits for eligible expenses. There is no deductible when you use in-network providers.

- a) in accordance with the generally accepted standards of medical practice;
- b) clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the patient's illness, injury or disease; and
- c) not primarily for the convenience of the patient, and not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that patient's illness, injury or disease. It is important to understand that even if you have a benefit for a particular service, if you do not have a medical need for that benefit, it will not be covered by the health plan.

Network. A group of hospitals, doctors, and other health care professionals that provide medical care at discounted rates.

Out-of-Pocket Maximum. An annual individual or family limit on the amount you spend out of your own pocket for medical plan expenses that the plan doesn't cover in full. If you are covering yourself and your family members, there is a maximum that applies to all of you. If your eligible expenses exceed these maximums, the plan will pay 100% of the cost for any additional eligible Medical Plan expenses for the rest of the calendar year, except for service specific maximums.

Pre-Admission Testing. Tests your doctor may want to do before you enter the hospital.

Pre-Existing Condition. Any diagnosed illness, injury, or other condition that you received treatment for before being covered by the IDB Medical Plan.

Prior Creditable Coverage. A period of time when you were covered for a pre-existing condition under another health plan that reduces the pre-existing waiting period under the IDB medical plan.

Reasonable and Customary (R&C). Reasonable and Customary (R&C). The prevailing cost for a specific medical plan service within a given geographical area of the United States. For purposes of our plan, for professional services, R&C is determined by using the 90th percentile of the costs established in nationally recognized databases utilized by third-party administrators and insurers as the acceptable rate of payment (i.e. limit). This means that, for a specific service, 90% of the providers in the geographic area charge the same or less than the R&C rate. R&C for all other services (including services at out-patient surgical or specialized facilities, lab & X-ray services, external prosthetic appliances, durable medical equipment, etc.) is set at 300% of Medicare

rates. Outside the United States, the R&C for each country is determined by the administrator based on prevailing costs within that country.

Service-Specific Maximums. Specific dollar maximums that apply for certain medical plan benefits.

Subrogation. A legal process that entitles IDB to recover payment it made for medical plan or long-term disability plan expenses that a third party was obligated to pay.

Unless there is a Qualifying Life Event, a waiver decision is final. Proof of the occurrence of the Qualifying Life Event is required.

3. PARTICIPATION IN THE MEDICAL INSURANCE PROGRAM

3.1. MANDATORY PARTICIPATION

3.1.1. All national Bank staff with employment contracts defined in Staff Rule PN-5.02 "Types of Appointments", and their respective spouses and dependent children, must participate in the Medical Insurance Program.

In options (d) and (e) all dependent children must be covered by the staff member.

Coverage for a newborn is retroactive to the moment of birth as long as such birth is on or subsequent to the effective date of pension commencement under the Bank's Retirement Plans.

2.3.2. Children of the retiree or spouse of the retiree may be covered even if (a) they do not reside with the retiree, or (b) are married. Such coverage ceases on the child's 26th birthday.

When both spouses are Bank retirees, or a combination of Bank staff and retiree, and both participate in the Medical Insurance Program, only one monthly contribution for the family will be deducted which will be from the spouse with the higher premium. In cases where one or both spouses are retirees vested under a progressive schedule, the Years of Participation for Vesting for each of the spouses (whichever is the most favorable for these participants) will be taken into consideration to determine the Premium payment for the family.

3. PARENT MEDICAL COVERAGE

3.1. The dependent parent of the retiree with an immediate pension can continue to participate in

the Parent Medical Coverage, provided that the parent was recognized as the retiree's dependent parent at the time of his/her termination of service with the Bank, and the dependent parent was enrolled in the Parent Medical Coverage for at least five (5) continuous years immediately prior to that time.
