OVERVIEW OF IADB

About the Inter-American Development Bank (IADB)

IADB HEADQUARTERS IN WASHINGTON DC

- Multilateral development institution founded in 1959.
- **IADB's Mission**
To improve lives in Latin America and the Caribbean countries by supporting efforts to reduce poverty and inequality in a sustainable, climate friendly way.
- IADB finances sovereign and private sector projects and programs through loans, guarantees, grants and technical assistance in the Latin American and Caribbean countries.
- **Owned by 48 member countries** – 26 Latin American and Caribbean countries and 22 non-borrowing countries.
- 2,000 employees across 4 continents with headquarters in Washington DC.
- **IADB is rated AAA/Aaa/AAA with stable outlook; triple-A rating since 1962.**

OVERVIEW OF IADB

The IADB Group

IADB (AAA/Aaa/AAA)

Inter-American Development Bank
est.1959

**ISSUER
OF IADB
BONDS**

ORDINARY CAPITAL

- Debt and equity funded
- Provides loans, guarantees and technical cooperation to sovereigns

FUND FOR SPECIAL OPERATION

- Debt and equity funded
- Funds raised from donors
- Provides loans to Sovereigns (lower income countries)

IADB GRANT FACILITY

- Fully equity funded
- Funds derived from annual conditional transfers from IADB
- Provides financing to Haiti

IIC (AA/Aa1/AAA)

Inter-American Investment Corporation
est.1984

**ISSUER
OF IIC
BONDS**

- Debt and equity funded
- Provides loans, guarantees and equity investments to private enterprises

MIF

Multilateral Investment Fund
est.1993

- Funds raised from donors
- Provides equity investments grants and small loans

OVERVIEW OF IADB

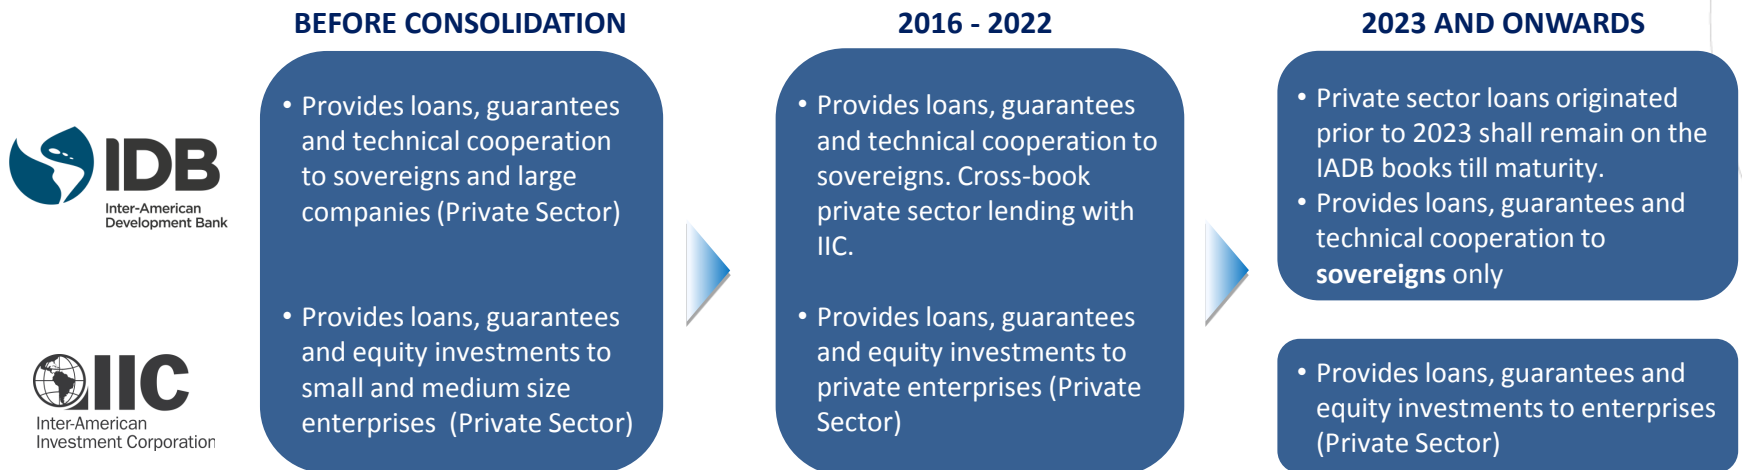

Recent Developments

In 2016 the Board of Governors approved a proposal to transfer all assets and liabilities of the Fund for Special Operations (FSO) to the Bank, effective January 1, 2017.

- Transfer would result in approximately USD5.2 billion of additional equity for the Bank, thus strengthening the Bank's financial position

In 2015 the Board of Governors approved a consolidation of private sector activities of the IADB Group:

- IADB's Structured and Corporate Finance (SCF) Department, Opportunities for the Majority (OMJ) Sector and Inter-American Investment Corporation (IIC) will consolidate into the new IIC.
- The aim is to maximize the development impact of private sector activities with improved efficiencies and synergies.
- IIC capital increase of USD2.03 bln: $\left\{ \begin{array}{l} \text{USD1.305 bln new contributions (2016 through 2023)} \\ \text{USD725 mln transfers from IADB (2018 through 2025)} \end{array} \right.$

IADB'S FINANCIAL STRENGTH

Capital Structure of the IADB

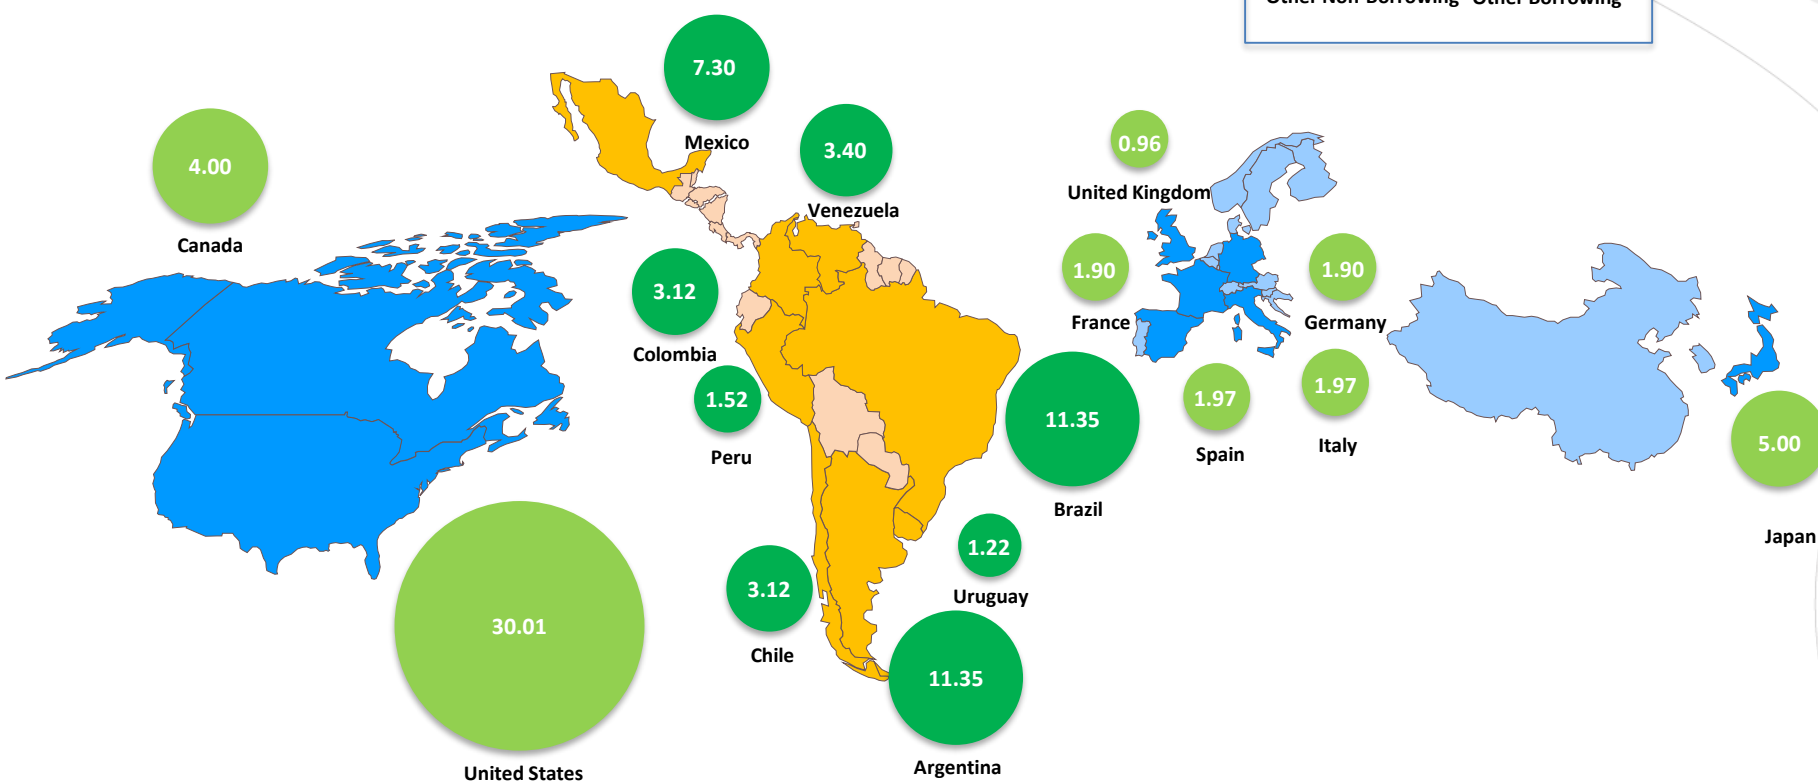

- IADB has raised its capital nine times since 1959.
- Ninth Capital Increase authorized in 2012 by the Board of Governors is the largest in the IADB's history—USD70 bln in authorized capital (paid-in portion of USD1.7 bln) over a 5-year period.
- Callable capital is subject to call only to meet borrowing obligations. The IADB has never made a call on its callable capital.

12/31/2016		
Paid-in Capital ¹	USD	5.8bln
Callable Capital	USD	164.9bln
Total Subscribed Capital	USD	170.7bln

¹ Net of capital subscriptions receivable and receivable from members.

IADB'S FINANCIAL STRENGTH

Quality Loan Portfolio

- IADB has never rescheduled nor written off a sovereign guaranteed loan.
- Recognized Preferred Creditor Treatment from borrowing members.
- Single borrower limits.
- Total impaired loans were 0.6% (2015—0.6%) of loan portfolio, all related to the non-sovereign guaranteed portfolio.
- Lending spread adjusted annually to ensure compliance with financial policies and added to outstanding and newly approved sovereign guaranteed loans to borrowing members.

2016 Top 5 Sovereign and NSG (Non-Sovereign Guaranteed) Outstanding Loans (USD bln)

IADB'S FINANCIAL STRENGTH

2016 Loan Approvals by Country

▶ There were 169 loan operations totaling USD10.7 bln approved in 2016.

Numbers may not add up due to rounding.

IADB'S FINANCIAL STRENGTH

IADB Lending Targets 5 Main Areas

Infrastructure

Transportation
Water and Sanitation

Social Services

Health
Education
Housing

Climate Change

Renewable Energies
Energy Efficiency
Environmental Sustainability

Institutional Building

Credit and Capital Markets Reform
Public Finance/Tax Reform

Integration

Trade
Cross Border Investments

IADB'S FINANCIAL STRENGTH

Typical Lending Cycle

Proposal

- Borrowers submit detailed proposal to IADB
- The proposal includes:
 - developmental impact
 - evaluation of the project's expected environmental risks and impact as well as the impact on gender and indigenous groups
 - proposed mitigation measures for expected risks/negative impact

Assessment

- The IADB evaluates the proposal taking into consideration:
 - capacity of the borrower to carry out its financial obligations under the loan agreement
 - technical, economic and developmental merits

Authorization

- Goes to Board of Executive Directors for approval

Implementation

- IADB staff reviews progress and monitors compliance with IADB policies to achieve the operation's objectives and ensures that funds lent are utilized as intended

Evaluation

- An independent unit of the IADB – Office of Evaluation and Oversight - evaluates lending operations to determine the extent to which they have met their objectives
- Evaluations are reported directly to the Board of Executive Directors

IADB'S FINANCIAL STRENGTH

Summary of Key Financial and Risk Management Policies

- Liquid holdings sufficient to cover at a minimum, 12 months of net cash requirements after haircuts.
- Objective: preservation of capital balancing risks and returns within risk constraints.
- Eligible investments include government, sub-sovereign, agency and corporate obligations rated double-A or better; supranational, asset and mortgage backed securities rated triple-A; and bank obligations rated single-A or better.
- Liquid assets funded by debt with similar rate reset characteristics.

IADB'S FINANCIAL STRENGTH

Summary of Key Financial and Risk Management Policies

- **Borrowing Capacity Policy:** net outstanding debt¹ is limited to the subscribed callable capital of the non-borrowing member countries (the United States, Canada, Japan and other non-regional members).
- Maturing debt (on a 12-month rolling period) cannot exceed 25% of outstanding debt.
- IADB's charter requires matching of assets and liabilities by currency.
- Derivatives (currency and interest rate swaps) are used for economic hedging purposes to achieve the desired currency composition and interest rate structure. Lowest permissible rating for a swap counterparty is A3/A-. Credit exposure is mitigated through netting and collateralization.

¹ "Net Outstanding Debt" is defined as borrowings (after swap) plus gross guarantee exposure, less qualified liquid assets (after swap), which include the special reserve assets.

IADB Bonds: A Sustainable Investment Option

- Long-term economic growth and the reduction of poverty and inequality in Latin America and the Caribbean depend on development that is both socially inclusive and environmentally sustainable.
- IADB is committed to maximizing the positive environmental and social impact of our work while minimizing the risks and negative impacts to people and natural capital.
- The IADB is rated by two sustainability rating agencies:
 - oekom research AG rated IADB “prime” in 2015
 - Sustainalytics scored IADB 73 out of 100 points (ranked 3rd out of 80 rated banks) in 2011

www.iadb.org/sustainability

Ensuring environmental and social sustainability through investments in Latin America and the Caribbean

IADB IN THE CAPITAL MARKETS

Sustainability in Our Operations

- **IADB is investing in climate change and environmental sustainability:** 35% of IADB lending of USD 10.7 billion in 2015 targeted environmental sustainability, climate change mitigation & adaptation, and sustainable energy, surpassing our goal of 25% by 2015.
- **IADB is adding value to its projects through the implementation of safeguards:** 89% of projects with high environmental and social risks rated satisfactory in safeguard mitigation measures, exceeding our goal of 85% by 2015.
- **IADB is implementing a new strategy and vision for sustainable infrastructure,** one that sees a shift from infrastructure being a fixed asset to infrastructure that is planned, built, and maintained as a service for people.
- **IADB innovate through special initiatives that support the sustainability agenda:** IADB's Emerging and Sustainable Cities Initiative (ESCI) won the **United Nations Framework Convention on Climate Change (UNFCCC) 2015 Momentum for Change Award.**
- **IADB is improving gender and diversity mainstreaming:** incorporating gender related results and sex-disaggregated indicators into more of our projects, to ensure that the benefits are felt by all, irrespective of sex, race and ethnicity.

Ensuring environmental and social sustainability through investments in Latin America and the Caribbean

IADB IN THE CAPITAL MARKETS

Sustainability at Home

- We have an established **Corporate Sustainability Program** to manage day to day operations of the Bank to manage and report on the Bank's institutional environmental footprint and to provide ongoing education and awareness activities.
- We continue to meet our “**carbon-neutral**” commitment: since 2007 IADB is recognized by the United States Environmental Protection Agency (EPA) Green Power Partnership Program (GPP) as a 100% Green Power Purchaser.
- We have extensive **volunteer and awareness programs**: in 2015 the Bank's Community Relations Program mobilized 261 volunteers and ran a series of campaigns, drives, and community projects.
- We partner with **over 50 local community-based organizations**: we work with organizations through grants, volunteerism, surplus equipment donation, and technical assistance.
- We embrace **diversity and inclusion** in our own workplace: in 2016 IADB received EDGE certification. EDGE stands for Economic Dividends for Gender Equality. It is a leading global assessment methodology and a business certification standard to measure a company's commitment on gender equality.

Empowering neighborhood communities, maximizing the potential of employees, and minimizing the environmental impact of our facilities (our footprint)

IADB IN THE CAPITAL MARKETS

Education, Youth, Employment (EYE) Bond Framework

1. Defined Project Eligibility Criteria - Defined eligible projects to support IADB's "life cycle" approach to building human capital from early childhood care and education, through formal primary and secondary education, as well as programs that facilitate labor market placement by improving the transition from school to work through vocational training.
2. Established project selection process coordinated with lending specialists and treasury division.
3. EYE Bond proceeds recorded in a separate sub-account and tracked against disbursements of eligible projects.
4. Reporting - a list of Eligible Projects (including web-links to the relevant documentation) funded by the EYE Bond program will be published annually on a dedicated section of the IADB website.

IADB IN THE CAPITAL MARKETS

Education, Youth, Employment (EYE) Bond

Education

IADB promotes effective teaching and learning among children and youth in Latin America and the Caribbean by supporting high standards, investing in early childhood development and school readiness, enhancing teacher training, ensuring adequate resources for learning, improving school infrastructure, and providing graduates with the skills needed for work and life.

Youth

IADB interventions are designed to promote the accumulation of human capital from early childhood care to youth programs, through the acquisition of practical life skills to reduce the likelihood of young people to engage in high risk behavior that may translate into economic and social costs for the individual, as well as society as a whole.

Employment

These projects assist the design, implementation and evaluation of policies to improve job opportunities and develop workforce skills. IADB supported projects also increase the coverage and sustainability of social security, while improving efficiency and productivity.

EYE ELIGIBLE PROJECTS

Belize: Education Quality Improvement (BL-1018)

Challenge: The Government of Belize has prioritized and invested heavily in education over the past few years. Yet, the impact of primary schooling on student outcomes is extremely poor. The discouraging results of primary education, in a context of relatively high spending, can be explained by various factors, which include lack of governance mechanisms for quality assurance, and low quality of instruction in primary school classrooms.

Objective: The objective is to improve the quality of primary education and the governance of the Belize education system. This objective is being achieved by training 50% of classroom teachers, as well as instructors at the Teacher Education Institutes that train future teachers. The program also trains some 37% of primary school principals in instructional leadership and administration, and creates an Education Management Information System.

EYE Bond Criteria	Education
Project Number	BL-L1018 (Approved on June 12, 2014)
Expected Results include:	By project end: <ul style="list-style-type: none">• Increase proportion of teacher candidates and teachers in targeted schools with an overall grade of B or higher on content exam• Increase student learning in Science, Math and English
IADB Loan Amount	USD10 million (Ordinary Capital)
Additional Information	http://www.iadb.org/en/projects/project-description-title,1303.html?id=BL-L1018

EYE ELIGIBLE PROJECTS

Barbados: Skills for the Future (BA-L1016)

Challenge: Barbados has long put a premium on education and provides free access to education including technical and vocational education (TVET). Nevertheless, the quality of education provided remains a concern as one out of five students in secondary education receives unsatisfactory grades in English and two out of five in Math; and many TVET programs are not aligned with needs of businesses.

Objective: The objective of this program is to support the Government's Human Resource Development Strategy, with an emphasis on improving the quality and relevance of secondary education and the effectiveness of technical and vocational training and education by forging close partnerships between business and training institutions. These partnerships are key to ensure that training is demand-driven and responds to the needs of employers while also resulting in skills certification for the trainees.

EYE Bond Criteria	Education
Project Number	BA-L1016 (Approved on Jun 21, 2012)
Expected Results include:	<p>By project end:</p> <ul style="list-style-type: none"> • Improve the employability of youth (16-24 years) through vocational and life-skills training • Increase number of trained and certified employees in businesses • Increase partnerships between business/industry and TVET institutions to provide demand driven training programs
IADB Loan Amount	USD20 million (Ordinary Capital)
Additional Information	http://www.iadb.org/en/projects/project-description-title,1303.html?id=ba-l1016

EYE ELIGIBLE PROJECTS

Chile: Program to Support SENCE's Effectiveness (CH-L1064)

Challenge: The Chilean labor market faces important challenges in terms of productivity and equity. In response to this situation, the Chilean Government is investing important resources in training programs implemented by the National Service for Training and Employment (SENCE). However, the quality and relevance of training policies and SENCE's institutional capacity is still low.

Objective: The objective of this operation is to improve the efficiency and effectiveness of labor policies for productivity, employability and equity. A central element will be the modernization of labor markets institutions.

This objective will be achieved through a program comprising the following three components: (i) improving efficiency and effectiveness in public spending in job training and training to improve formal employment; (ii) improving quality and relevance of training policies; and (iii) improving administrative management

EYE Bond Criteria	Employment
Project Number	CH-L1064 (Approved on October 10, 2012)
Expected Results include:	<p>By project end:</p> <ul style="list-style-type: none"> • Improve the share of beneficiaries from the National Service for Training and Employment (SENCE) with a higher income than the control group • Increase the positive income differential between SENCE's beneficiaries and the control group • Improve the share of formal employment of SENCE's beneficiaries in comparison to the control group
IADB Loan Amount	USD7.5 million (Ordinary Capital)
Additional Information	http://www.iadb.org/en/projects/project-description-title,1303.html?id=CH-L1064

EYE ELIGIBLE PROJECTS

Peru: Program to Improve Early Education in Ayacucho, Huancavelica and Huanuco (PE-1062)

Challenge: Peru has made great strides in expanding its education system in recent decades. However, the quality of instruction remains a challenge, particularly in the early years when the foundations for future learning are being laid. In Ayacucho, Huancavelica and Huanuco, where approximately 135,000 children ages 3 to 5 live, education indicators fall short of the national average. This is of greater concern as these areas showcase the inequalities associated with poverty, living in rural areas, and speaking a language other than Spanish.

Objective: The general objective of the program is to improve the quality of early education services for children ages 3 to 5 years in the departments of Ayacucho, Huancavelica, and Huanuco. The specific objectives are: (i) to ensure suitable, safe educational facilities for children that will aid the teaching/learning process; and (ii) to improve teaching practices and management of education agents through support, relevant educational materials, and family participation, to encourage the children's learning.

EYE Bond Criteria	Education
Project Number	PE-1062 (Approved on December 07, 2011)
Expected Results include:	By project end: <ul style="list-style-type: none"> • Improve the quality of the infrastructure of the early education centers as well as educational materials available • Enhance teaching and education management practices and promote parent participation in their children's education
IADB Loan Amount	\$25 million (Ordinary Capital)

EFFECTIVENESS FOR IMPROVING LIVES

Belize: Solid Waste Management Project

Challenge: Inadequate waste collection systems prevailed throughout the country, with improper discharge of wastes in open or only partially controlled dumps, lacking the necessary technical and sanitary and environmental controls. The inadequacy of final waste disposal practices on the offshore islands of Belize became a worrisome aspect due to their proximity to coral reefs and their importance to the ecotourism market.

Objective: The objective of the project was to support Belize in its efforts to improve solid waste management practices, reduce environmental pollution, and enhance the image of Belize in the ecotourism market through better management of its municipal solid wastes (MSW). The project sought to address the solid waste management needs along the Western corridor (Belize City, San Ignacio and Santa Elena), and the islands of Ambergris (San Pedro) and Caye Caulker, and also to strengthen overall Central Government capacities to improve solid waste management.

Results: The project has resulted in the construction of the first sanitary landfill in Belize. Another main result of the project has been the closing of the dumpsites in the Western Corridor (Belize City, San Ignacio and Burrell Boom), and the corresponding replacement with transfer stations. By the end of the project: (a) 30,653 households in Belize had access to safe disposal of solid waste in a sanitary landfill, representing 39% of the households in Belize (0% in 2009); (b) 56,711 metric tons of solid waste had been safely disposed in the sanitary landfill since August 2013; and (c) absence of fire incidents and the related environmental and health impacts since 2010 at the locations of the former dumpsites in Belize City and San Ignacio.

Loan	Solid Waste Management Project (BL-L1006)
Sector	Water and Sanitation
Loan Amount	USD11.15 million

EFFECTIVENESS FOR IMPROVING LIVES

Honduras: To a Great Start

Primary Education and Technology Integration

Challenge: Honduras has made significant progress in expanding coverage of preschool and primary education (grades 1 to 6), and has taken promising actions to better address the challenges of the quality of education. However, gaps in coverage and problems with quality, internal efficiency, and equity in the educational system still remain. The evaluation showed that many students did not attain the knowledge and skills expected of them: **20 percent of students had to repeat the first grade, and during the first three years of primary school 10 percent of students were either left back or dropped out.**

Objective: To address the problem, the government of Honduras worked with the IDB to design the Primary Education and Technology Integration Program. The program, financed by a **US\$37 million** sovereign guaranteed (SG) **loan** aimed to **improve learning by children in preschools and primary schools that serve the very poor.** The initiative sought to expand access to primary education, provide educational materials and training for teachers, and introduce technologies such as laptop computers and network connections.

Results: This program established **624 community preschool education centers**, furnishing them and providing educational materials and stipends for volunteer teachers. **Teachers also received training** in a guided learning method known as “Play and Learn.” By the time the project had ended, in 2014, **5,128 Honduran children from poor families had benefited** from the new preschool education centers. As a result, the children were better prepared to face the challenges of entering primary school. An evaluation of students who received the preschool training during the first year of the project found that repetition rates for first grade declined by 7 percent, surpassing the program goal of 4 percent.

Loan	Primary Education and Technology Integration Program (HO-L1062)
Sector	Education
Loan Amount	USD37 million

EFFECTIVENESS FOR IMPROVING LIVES

Brazil: Bringing a River Back to Life

Improving the Quality of Water of the São Domingos River

Challenge: Catanduva, the capital of Brazil's ceiling fan industry, is located in the exuberant hinterland of the state of São Paulo and is home to 120,000 people. Catanduva is one of the most promising regional economic centers in Northern São Paulo, thanks to its bustling service industry and household appliance manufacturing industry. In spite of Catanduva's booming economy, for decades the city **neglected one of its most valuable resources, the São Domingos River**. Until recently, Catanduva **poured almost all of its sewage into the river**. As **pollution increased**, the vegetation near the banks of the São Domingos River slowly stopped growing. The city urgently needed to **find a solution to clean the river and bring it back to life**.

Objective: In 2009, the city of Catanduva obtained a **US\$8.4 million** sovereign guaranteed (SG) **loan from the IDB** to supplement the financing of an ambitious US\$26 million initiative known as the Catanduva Integrated Development Program. The program's goal was to **expand the city's green spaces and leisure areas and find a lasting solution to restore the São Domingos River**.

Results: Through the program, **the city's sewage treatment system was completed and a sewage treatment plant was constructed**. Today, the plant **treats 100 percent of the municipality's sewage**. The quality of the water in the São Domingos River and its ability of sustain aquatic life have also improved. The program also **modernized the operations, processes, and services of the local sanitation agency**, the Catanduva Water and Sanitation Superintendence (SAEC). The SAEC, which had been troubled by inefficiencies in service provision, now runs a revenue surplus. In addition to the environmental benefits, the program financed the rehabilitation of important areas of the city, offering more leisure space for the inhabitants of Catanduva.

Loan	Catanduva Integrated Urban Development Program (BL-L1171)
Sector	Urban Development and Housing
Loan Amount	USD8.4 million
