|---------|-----------------------------------|---------------------------------|--------------------------|
| 1       | Synetech Inc.                     | 7,500,000                       | 7,500,000                |
| 2       | Micro Design Technology Inc.      | 8,118,000                       | 8,118,000                |
| 3       | Vishnu Panday and Associates Inc. | 9,029,400                       | 9,029,400                |
| 4       | Massy Technologies (Guyana) Ltd   | -                               | -                        |
| 5       | NT Computeac                      | 9,199,482                       | 9,199,482                |

Bids that were rejected and the reason/s for rejection:

| Bid No. | Name of Bidder | Reason/s for Rejection of Bid                            |
|---------|----------------|----------------------------------------------------------|
| 1       | Synetech Inc.  | Bid did not comply with Bidding Documents to provide the |

|   |                                 |                                                                                                                                                                                                                                  |
|---|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   |                                 | Windows Server 2019 Datacenter License to be installed by the Purchaser (GPL). The Bid indicated that the Servers will have software factory installed                                                                           |
| 2 | Micro Design Technology Inc.    | Bid did not comply with technical specifications to have 2 x 1.92TB drives included on each server. The Bid was not sufficiently clear whether the Windows Server 2019 Datacenter License Software would be supplied separately. |
| 4 | Massy Technologies (Guyana) Ltd | Bid did not include the complete set of documents required and in the form required. Additionally, the bidder did not submit the Bid Security, which is a mandatory requirement.                                                 |
| 5 | NT Computeac                    | Bid did not offer the lowest evaluated cost to the Purchaser                                                                                                                                                                     |

e Contract was awarded to the following Bidder:

| Bid No. | Name of Bidder                    | Contract Award Price | Duration of Contract | Summary Scope of Contract                                                                                                                                                                                       |
|---------|-----------------------------------|----------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3       | Vishnu Panday and Associates Inc. | 9.029,400.00         | 6 weeks              | The scope includes (i) supply of three Servers with specifications as defined in the Bidding Document and Contract, and (ii) Windows Server 2019 Datacenter Software Licenses to be installed by the Purchaser. |

**portant Note:** Bidders are hereby informed that following this publication of the Award of Contract for ICB GPL-IDB-J-005-2020, unsuccessful bidders may request in writing to the Purchaser, Guyana Power and Light Inc.(GPL) for a briefing, seeking explanations for the failure of their bids. Within a timely manner the Purchaser will provide a written sponse to the request.
