

# PROJECT STATUS REPORT

JULY 2017 - DECEMBER 2017

## SECTION 1: PROJECT SUMMARY

**PROJECT NAME:** Facilitating the integration of Haitian artisans into high-value supply chains

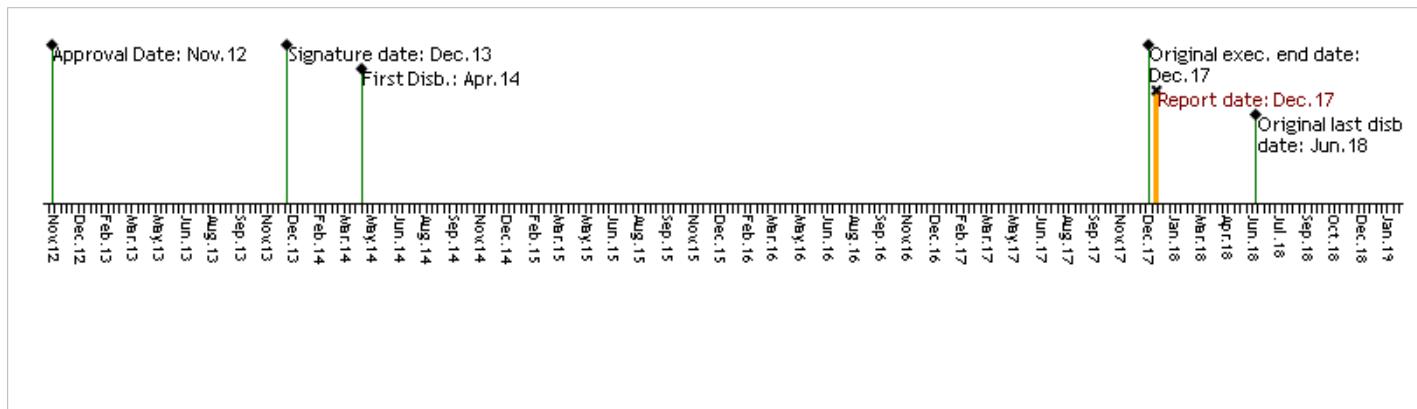

Project Number: HA-M1046 - Project Num.: ATN/ME-13545-HA

**Purpose:** Stakeholders in the value chain participating in the project are strengthened to meet unmet demand of export quality Haitian artisan products.

## SECTION 2: PERFORMANCE

### Summary of project performance since inception

ABN est en difficulté dans ses objectifs de développement durable. Le plan stratégique conçu est entré en application. Des mesures sont prises notamment au niveau des ressources humaines pour renforcer l'administration de l'organisation mais il reste encore des obstacles à surmonter. A date le poste de direction exécutive attend encore de trouver preneur.

#### Organisationnel :

- Renforcement des capacités : Traiter les problèmes de logistique, rendre effectif les ateliers pratiques sur les questions d'emballage et de planification. Enfin réduire les délais dans le rapportage au niveau de l'administration.

- Professionnaliser les procédures et les routines :

- O Standardisation des documents

- O Mise à jour continu dans l'utilisation de logiciels comptables.

- O Marque interne et externe : utilisation du logo ABN sur toutes les communications

#### Financier :

- Staff réduit.

- Rapportage sur chaque événement de vente en termes de retour sur investissement, et mise à l'écart de toute opportunité de vente où la rentabilité n'est pas envisageable.

- Renforcer les ventes en consignation.

- Fermeture effective du point de vente de Marriott et relocalisation du showroom sur la route de l'aéroport.

### Comments from the Supervision Team Leader

Partially Agree with the Executing Agency comments

The MIF partially agrees with the Cumulative performance of the project. This report as-is reflects the situation of ABN on December 31, 2017. It lacks insights on what the project has achieved to date and how the sustainability aspect of the institution is being addressed.

However, the two aspects reported are critically important to the survival of ABN. From this report, one may deduct the urgency of an action plan to save ABN should its mission remains relevant. The traditional PSR visit will be a good time to reflect on the sustainability plan and see what recommendation should go along at the closure of this project.

### Summary of project performance in the last six months

Le ralentissement des activités s'est poursuivi pendant le deuxième semestre de l'année 2017. Dans une approche de gestion plus efficiente et aussi pour répondre à un choix stratégique tourné vers l'avenir, nous avons déménagé de notre local à Pacot, pour le complexe Batimat sur la route de l'aéroport.

Les problèmes de livraison et d'emballage ont été adressés et sont en parti résolus. Notre participation au "New York Now Show" août 2017, est globalement une réussite. Nous avons pu ramener quelques commandes à nos artisans. Les ventes ont toutefois déclinées pendant ce semestre, car nous avons dû fermer notre store à Marriott. Notre nouvelle localisation correspond certes mieux à une stratégie d'exportation, mais les clients hésitent encore à nous rejoindre là-bas évoquant le passé dangereux de la zone. Enfin les foires locales ne tiennent plus leurs promesses d'antan.

La réduction du personnel s'est poursuivie, comme ce fut le cas en début d'année, mais avec l'aide du logiciel comptable QuickBooks, nous avons pu renforcer, parallèlement, notre système de gestion et de contrôle.

### Comments from the Supervision Team Leader

Partially Agree with the Executing Agency comments

The semester performance lacks "metrics" and relevant data to measure ABN's progress in regards to the "Facilitating the integration of Haitian artisans into high-value supply chains." The project is as its final stage. Yet, there was no report on the Delayed indicators.

**CRITICAL ISSUES THAT HAVE AFFECTED PERFORMANCE***[None reported in this period]***SECTION 4: RISKS****MOST IMPORTANT RISKS AFFECTING FUTURE PERFORMANCE**

| Level | Mitigation action   | Responsible         |
|-------|---|---------------------|
| Low   | Des mesures de réductions des dépenses drastiques, telles: Réduction du personnel, réduction de coût des loyers, etc., sont prises. ABN se redéfinit à travers un nouveau plan d'affaire pour se relancer. Dans cette période de transition, les risques liés à la motivation du personnel, à la capacité de pouvoir continuer à bien négocier les engagements pris par le passé sont autant de défis auquel on doit faire face. La mise en place de la feuille de route qu'imposera le nouveau plan d'affaire, est tributaire de nos résultats dans cette période de transition. | Project Coordinator |
| Low   | The executing agency together with the project's partners will design and implement a sustainability strategy. ABN could generate income by charging a fee to exporters, intermediaries and artisans for any service provided.  | Project Coordinator |
| Low   | A strengthening plan for ABN will be designed, including an analysis on its executing capacity (financial, procurement and monitoring systems).   | Project Coordinator |

## SECTION 5: SUSTAINABILITY

**Likelihood of project sustainability after project completion:** LP - Low Probability

### CRITICAL ISSUES THAT MAY AFFECT PROJECT SUSTAINABILITY

*[None reported in this period]*

### Actions related to sustainability which have been taken in the reporting period:

L'analyse de la pérennité de ABN, établi dans le rapport précédent, est juste. Les mesures d'urgence prônées sont appliquées: qu'il s'agisse de la réduction du personnel et des activités ou de la décision de déménager dans des installations moins coûteuses. Au delà de l'assainissement administratif en cours, ABN planifie sa relance économique à travers un plan d'affaire pour l'année 2018. Une analyse approfondie des difficultés pourra permettre de proposer des actions et de mettre en place les mécanismes de relance. Ce nouveau plan d'affaire, tiendra compte aussi bien de la restructuration du réseau et de la collecte des cotisations, que des programmes de participation au succès des artisans dans leur aventure internationale.

## SECTION 6: PRACTICAL LESSONS

|   | Relative to<br>Sustainability | Author             |
|---|-------------------------------|--------------------|
| 1. L'utilisation et l'implémentation du système de gestion QuickBooks fait progresser le système de rapportage (sous format numérique ou sur papier). Les rapports d'audit renseignent efficacement sur les mesures à prendre, que ce soit pour le programme ou l'organisation. Il implique toutefois de les recevoir dans un délai plus raisonnable de sorte à opérer au plus vite les recommandations. Plus vite l'organisation s'adapte aux nouvelles directives, mieux il se portera d'un point de vue technique, administratif ou financier. | Sustainability                | Michel, FitzGerald |
