(1) Grouping together of similar procurement, is recommended, such as computer hardware, publications, travel, etc. If there are number of similar individual contracts to be executed at different time, they can be grouped together under a single heading, with an explanation in the comments column indicating the average individual amount and the period during which the contract would be executed. For example: an export promotion project that includes travel to participate in fairs would have an item called "airfare for fairs", an estimated total value of US\$ 5,000, and an explanation in the Comments column: "This is for approximately four different airfares to participate in fairs in the region in years X and XI.

(2) Goods and works: CB: Competitive Biding; PC: Price Comparison; DC: Direct contracting

(2) Consulting Firms: CQS: Selection based on the consultancies' qualifications; QCBS: Quality and cost-based selection; LCS: Least cost selection; FBS: Selection under a fixed budget; SSS: single Source Selection; QBS: Quality Based Selection

(2) Individual Consultants: IICQ: International individual consultant selection based on qualifications; SSS: Single source selection, QNCI: Comparison of Qualifications National Individual Consultants

(2) Country System: Include Selection Method

(3) Ex-Ante/Ex-Post Review: In general, depending on the institutional capacity and level of risk associated with the procurement, X-Post review is the standard modality. Ex-Ante review can be specified for critical or complex process.

(4) Tachnical review. PTL will use this column to define those procurement he/she considers "critical" or "complex" that require X Ante review of the terms of reference, technical specifications, reports, outputs, or other items.
