RESULTS MATRIX

General Development Objectives

General Development Objectives Nbr. 1: IMPACT #1: IMPROVED ECONOMIC ACTIVITY OF THE BENEFICIARIES

Observation:

	Indicator	Unit of Measure	Baseline	Baseline Year	Expected Year of Achievement		EOP 2025
1.0	Average percentage growth of revenue of project's beneficiaries	%	0	2018	2025	Р	2
	vis-à-vis a control group.					А	-
Dotaile							

Means of Verification: SBDC information system

Observations: This indicator is measured as the difference between the average growth rate of revenue of project beneficiaries minus the average growth of revenue of firm that registered with SBDC but did not receive credit. The baseline equals zero because at the baseline there is no difference in growth between both groups. Note: According to data from the SBDC information system, the baseline value of sales, in US\$, is US\$130,312.

The General Development Objective indicator target is expected to be observed by the operation's "Fully Justified" date in Convergence (CO): No

Pro-Gender	No	Pro-Ethnicity	No	CRF indicator						
	Indicator				Unit of Measure	Baseline	Baseline Year	Expected Year of Achievement		EOP 2025
1.2	Ease of Gett	ting Credit Score			#	30	2019	2025	Р	31
Details									A	-
DetailS										

Means of Verification: World Bank Doing Business Report

Observations: This indicator is a component of the Ease of Doing Business indicator. It aggregates measures of credit information sharing and legal rights of borrowers and lenders. It is expected that the program will contribute in the long run to this indicator. This indicator is measured every year by the World Bank.

The General Development Objective indicator target is expected to be observed by the operation's "Fully Justified" date in Convergence (CO): No

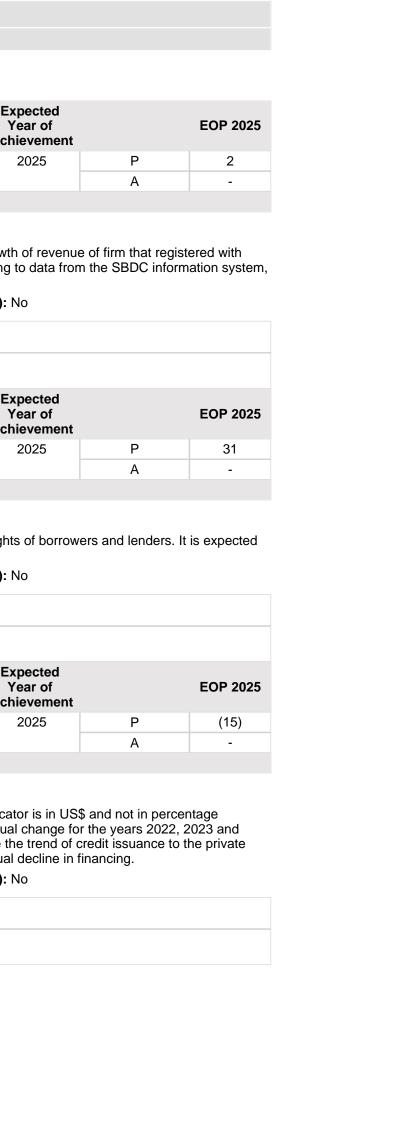

Pro-Gender	No	Pro-Ethnicity	No	CRF indicator							
	Indicator				Unit o	f Measure	Baseline	Baseline Year	Expected Year of Achievement		EOP 2025
1.3	Three-year annual average change of total loans to MSME by		s to MSME by	SME by US\$ million		-20	2018	2025	Р	(15)	
	banks									Α	-
Details											

Means of Verification: SBDC information system

Observations: This indicator measures the three-year average annual change in disbursements of credit to MSME by banks in The Bahamas. The indicator is in US\$ and not in percentage change. Baseline is equivalent average annual change in total credit to MSME for the period 2015-2018. The target value will measure the average annual change for the years 2022, 2023 and 2024. Average program's annual disbursements plus the expected credit from repayments are added to the baseline to calculate the target value. Since the trend of credit issuance to the private sector has been negative in recent years, including the baseline year, it is expected that the program at the very least will collaborate to reduce the annual decline in financing.

The General Development Objective indicator target is expected to be observed by the operation's "Fully Justified" date in Convergence (CO): No

Pro-Gender	No	Pro-Ethnicity	No	CRF indicator

RESULTS MATRIX

Specific Development Objectives

Specific Development Objectives Nbr. 1: OUTCOME # 1: ACCESS TO FINANCE ENHANCED

Observation:

	Indicator	Unit of Measure	Baseline	Baseline Year		2025	EOP 2025
1.0	Average percentage growth of revenue of project's beneficiaries	%	2.2	2018	Р	2.2	2.2
					Α	-	-

Details

Means of Verification: SBDC information system

Observations: This indicator is measured as the average annual growth rate of revenue for the beneficiaries of credits guaranteed by project's funds. The baseline is equal to the baseline growth rate estimated in the Economic Analysis. Once the first cohorts of beneficiaries are know, the baseline will be adjusted accordingly. For the final evaluation, a before and after analysis of this indicator will be carried. Note: According to data from the SBDC information system, the baseline value of sales, in US\$, is US\$130,312.

Evaluation Methodology: -

	Indicator	'	Unit of Measure	Baseline	Baseline Year		2025	EOP 2025
1.1	Credit success rate of MSME assisted by SBDC			0	2019	Р	10	10
						Α	-	-

Details

Means of Verification: SBDC information system

Observations: This indicator is measured as the percentage of SBDC-assisted firms that received credit by Financial Intermediaries (banks), supported by the guarantee from the Credit Enhancement Facility (CEF). The baseline is zero because at the time of preparation the CEF is not issuing guarantees. The numerator consists of the expected number of MSME assisted and vetted by SBDC that will receive a loan. The denominator includes MSME that receive assistance for financial statements and/or business models (see product indicator). It should be noted that the value is less than 100 due to factors such as not all assisted MSME are expected to apply for a loan and the amount of CEF funds available is limited. The measurement of this indicator will be done for the first cohorts of project's beneficiaries so that enough time is left for the outcomes to materialize before the end of execution period.

Evaluation Methodology: -

	Indicator	Unit of Measure	Baseline	Baseline Year		2025	EOP 2025
1.2	Average Non-Performing Loans (NPL) rate for the portfolio of loans guaranteed	%	8.5	2018	Р	8.5	8.5
	by project's funds				А	-	-

Details

Means of Verification: SBDC information system

Observations: This indicator is measured as the ratio of total NPL to total loans of the portfolio generated by the guarantees issued by SBDC using project's funds. The baseline is an average of the NPL rate at the end of 2017 and 2018. It is expected that the project will improve this ratio to the target value of 6% for the beneficiaries.

Evaluation Methodology: -

Pro-Gender	No	Pro-Ethnicity	No	CRF indicator

	Indicator	Unit of Measure	Baseline	Baseline Year		2025	EOP 2025
1.3	Total Outstanding Loans supported by the Guarantee Scheme	\$M	2.7	2020	Р	-	30
					Α	-	-

Details

Means of Verification: SBDC information system

Observations: This is track the number of loans generated from the guarantee program as a result of the intervention.

Evaluation Methodology: -
