

FROM: Victoria Márquez-Mees, Directora del MICI

REFERENCE: Request MICI-BID-BR-2017-0123 regarding “Várzeas del Tietê” Program (BR-L1216)

DATE: July 31, 2017

SUBJECT: **Notification of Extension**

Dear Requesters,

After receiving your communication on July 25, and within the five business-days defined by the MICI policy, we have found that the Request addresses two different topics. Therefore, we will address each topic separately:

1. Regarding your Request for Information

In relation to the information request regarding the loan to the Government of Sao Paulo for Project “Várzeas del Tietê” (BR-L1216), please refer this request to the Bank’s website: (<http://www.iadb.org/es/solicitud-de-informacion,18885.html>).

The institution responsible for responding to information requests is the Public Information Center (PIC). MICI is not the agency responsible for information requests.

2. Within the Scope of MICI

Regarding your claim about harm allegations linked to a possible noncompliance of the Bank Operational Policies (OP-710); this matter is within the scope of MICI.

The MICI Policy establishes formal requirements that the Requestors must comply with (see paragraph 14 of the MICI Policy), and at present your Request does not comply with all formal requirements.

Therefore, this notification is to inform you that you have **10 business days from this date** to send us your Request containing the information required to register and proceed to the analysis stage of admissibility. Attached is a table of requirements that are yet to be included in your Request. The deadline expires on **Monday, August 14, 2017**.

It would be helpful to have a discussion over the phone, so we can explain the MICI process and answer your questions. Please let us know your contact information so we can call you. In the meantime, here is the information necessary for the submission requirements:

1. The MICI Policy
2. Model Request Letter
3. Note with pending requirements table

You can find further information in our website (www.iadb.org/mici) and examples of other cases in the [Public Registry](#) .

Finally, please note that if MICI does not receive the complete information before August 14, 2017, MICI's administrative process for Request MICI-BID-BR-2017-0123 will be closed. However, you may initiate a new administrative process once you send us the complete information on the date that suits you best.

We are at your disposal to answer any questions or clarifications regarding the MICI process.

Kind regards,
